

# **WARRANTY**

## **HIGH DENSITY POLYETHYLENE OUTDOOR FURNITURE**

### **TWENTY YEAR LIMITED WARRANTY (RESIDENTIAL) FIVE YEAR LIMITED WARRANTY (COMMERCIAL)**

**Mayse Manufacturing Company warrants that its high density polyethylene furniture products will be free of original defects in materials and workmanship for a period of twenty years of residential use, or five years of commercial use. This warranty applies only to the original purchaser of the product, and requires that original purchase receipt be presented at the time of warranty claim. At its option, Mayse Manufacturing Company will repair or replace the warranted product without charge for materials and labor, providing that our inspection indicates that an original defect exists. If it is decided that the product needs to be replaced and the product is no longer available, a substitution product of equal or greater value and performance will be made. High density polyethylene is a synthetic product and may fade slightly when exposed to sunlight. Expansion and contraction can also be expected due to changes in temperature and humidity. These changes shall not be considered defects in materials or workmanship and are not covered under this warranty. Stainless steel fasteners may rust in extreme environments such as coastal areas where high salt environments exist. This warranty does not cover rusting fasteners or structural failure due to rusting fasteners, damage caused by unauthorized repair or service, abuse or misuse of the product, any alterations of the product, any use of the product in a manner or purpose other than what is customarily intended for, or normal wear and tear effects on the furniture which are received during regular use.**
